ITE and the Tashkent Institution of Postgraduate Medical Education would like to invite pharmaceutical companies to take part in the International Pharmaceutical Congress. The exhibition's scientific programme includes seminars, presentations and masterclasses.

Taking part in the exhibition and congress is a unique opportunity to present your products to end consumers – at the same time as using seminars and presentations to introduce an exclusive target audience to your products. More than 10,000 visitors over three days

Areas of the congress:

CARDIOLOGY, NEUROLOGY, PAEDIATRICS, ANTIBIOTIC TREATMENT

Leading scientists from Uzbekistan, the CIS and further afield will feature in the congress programme.

Discounts are available for early booking!

Contact the organisers for more information.

Visitor statistics:

44%
